

Aaron Abilez

I am running for Christoval ISD school board member along with seven other outstanding members of this community.

Education

- High School - Round Rock Stony Point 6A
- College - Angelo State University – B.A. Management Information Systems – Football Linebacker/Fullback - Coach Vandergriff

Laura and I moved to Christoval in 2006 and decided 18 years ago that we wanted our kids to grow up in a small town that has values and goals like us. Our oldest son recently graduated and went through K-12 in the CISD system and is attending Abilene Christian University. All based on the foundation of the CISD education system. And today we have a 7th grader on the same path as well.

Community Volunteering/Coaching

- Elementary PTO, and Cougar Club - 12+ combined years.
- Christoval Little League - 10 years coaching.
- 3rd-5th grade football/baseball/basketball - 14 years coaching.

Career

I have worked at the City of San Angelo for 13 years in the GIS Division. (Geographic Information Systems). Working on the forefront of technology on an ever-changing basis is something that I thrive on daily creating the latest streamlined workflows for data creation workflows for public safety events for 911 routing and server administration pushes me to my best work daily in field of study and drives me to excel to the top of my work area. The GIS environment I like to be involved with is when the customer's ideas/views are first and are seen throughout the entire project. This allows our GIS team to work the "problem at hand" and focus on the end goal.

I am also part owner in BAK Outdoors, LLC. We created a line of our own custom camo patterns to fit the different rugged Texas terrains. Customer service is the driving factor of any small business, and this skill set will transition to the needs of the community members, faculty staff, and student body for Christoval.

My professional career and experiences will provide instrumental assistance through the decision-making processes and tasks that are required by the school board position.

Goals

As a valued asset as a school board member, I will be able to assist with transparency, collaboration and leadership throughout the administration, faculty, and student body. This will establish the foundation of a strong community for future generations.

My goal will be to protect the investment of the taxpayers and continue to provide a voice for every citizen of our community.

If elected the student body/community members/education/facility/admin staff/athletics/agriculture/extracurricular activities will be held to setting high expectations just as previous school boards have done in the past. My strong Christian beliefs and values will be withheld throughout all my decisions and views as a school board member if elected by my fellow Christoval community members.

Thank you all for your time. If you have any questions, please feel free to reach out to me anytime. 325.340.2234 (cell). See you at the polls Nov.5th. Aaron Abilez.
